

a congressional candidate from the state

00:10 of Virginia has openly admitted that he

00:13 was running a websites that supported

00:17 the notion of legalizing pedophilia

00:19 raping wives and all sorts of things

00:21 that you wouldn't imagine someone would

00:24 publicly support his name is Nathan

00:27 Larson and I am going to give you some

00:29 of the details of what he included what

00:32 he himself contributed to these websites

00:34 when asked whether he's a pedophile or

00:37 just writes about pedophilia he said

00:39 quote it's a mix of both when people go

00:42 over the top there's a grain of truth to

00:44 what they say so when I read you some of

00:48 the things that he himself had posted on  
00:50 that website just to understand that he  
00:53 himself says that there is a grain of  
00:55 truth to what he's writing even if it  
00:57 sounds like it's over the top or even if  
00:59 it is over the top all right so these  
01:01 websites have been taken down and  
01:03 Huffington Post broke this story and  
01:05 they investigated those websites and  
01:08 tied it back to this congressional  
01:10 candidate to give you some of the other  
01:12 disgusting things that we've learned he  
01:14 told The Huffington Post a lot of people  
01:16 are tired of political correctness and  
01:17 being constrained by it

01:19 people prefer when there is an outsider  
01:21 who doesn't have anything to lose and is  
01:23 willing to say what's on a lot of  
01:25 people's minds so he is thinking of  
01:28 himself as this anti-establishment  
01:31 candidate that most people or a lot of  
01:34 people can relate to but they're too  
01:35 afraid to you know represent themselves  
01:37 in this way out in the open  
01:40 asked whether there was a grain of truth  
01:42 in his essay about father-daughter  
01:45 incest and another about raping his  
01:47 ex-wife repeatedly he said yes offering  
01:50 that plenty of women have rape fantasies  
01:52 let me read one more and then we'll open

01:55 it up to the panel his platform as a

01:57 quasi neo reactionary Libertarian

02:00 candidate includes protecting gun

02:02 ownership rights establishing free trade

02:05 and protecting benevolent white

02:06 supremacy as well as legalizing

02:09 incestuous marriage and child

02:12 pornography

02:14 he also believes that Adolf Hitler was a

02:17 hero

02:18 so now look does he represent all right

02:22 wingers of course not and he's running

02:25 as an independent although obviously

02:26 very very right-wing and so he doesn't

02:30 represent all Republicans either but

02:32 unfortunately this era has given

02:34 permission to some people to do and say

02:38 outrageous things he said a lot of

02:40 people who disagreed with someone like

02:42 Trump might vote for them anyway

02:43 just because the establishment doesn't

02:45 like them so that's his plan he's like

02:47 I'm not going to be politically correct

02:49 I'm gonna tell you that I want to have

02:50 sex with children and you guys voted for

02:53 Trump because you hated the

02:54 establishment so much so you might vote

02:55 for me that's what he's saying so now

02:57 when you think I mean all the things

03:00 that Anna said he can't possibly get

03:02 worse right I mean it's this bad worse

03:03 it's almost as bad as you can imagine no

03:06 it gets worse so he is in favor of child

03:10 rape and he thinks that you should adopt

03:13 kids so that you could rape that that's

03:16 exactly that's exactly what he said and

03:17 these are these are quotes that he gave

03:20 to Huffington Post they were

03:21 interviewing him these are things he

03:23 said he said we need to switch to a

03:24 system that classifies women as property

03:26 initially of their fathers and later of

03:29 their husbands he also showed sympathy

03:31 for men who identify as involuntary

03:33 celibates or in cells suggesting it is

03:36 unfair that they are forced to pay taxes  
03:38 for schools welfare and other support  
03:41 for other men's children and at one  
03:44 point he compares women to animals  
03:47 literally women's animals and he says  
03:49 something about how well women still  
03:52 have it better than animals because at  
03:54 least they get to procreate yeah he said  
03:57 women are objects to be taken care of by  
03:58 men like any other property female sex  
04:01 slaves actually get a much better deal  
04:03 than animals because in most cases  
04:05 they're allowed to reproduce unlike  
04:06 animals raised for meat or companionship  
04:08 and and so that is also part of a larger

04:12 symptom here now he's the most extreme

04:14 end of it I get that and not everybody

04:16 not even all the insults think like this

04:19 and they've got their own issues

04:21 obviously but we live in an era where he

04:25 feels empowered

04:27 to put this out there and thinks hey I

04:28 got a shot cuz there's a lot of people

04:30 who apparently do it grew if me and I

04:32 have now come out of the closet he says

04:34 why doesn't every pedo just focus on

04:36 making money so they can get a pedo of

04:38 wife and then either impregnate her with

04:39 some F toys or adopt some F toys that's

04:43 what he calls kids F toys okay and he

04:46 said the adoption process lets you pick  
04:48 a boy or a girl and if all that wasn't  
04:52 bad enough he's got a three-year-old  
04:54 daughter yeah something that you said  
04:57 that I think is so important is that  
04:59 like he felt comfortable saying this  
05:01 stuff out loud and where does that come  
05:03 from  
05:03 with this started with we have a  
05:05 president who felt comfortable miked up  
05:07 saying that he likes to grab women by  
05:10 their vagina and a lot of people took it  
05:11 so it's a joke in Alabama there were so  
05:14 many people saying 14-year olds were  
05:16 probably asking for it or being

05:18 flirtatious or being fast and it's of

05:21 course you can't say this is the same as

05:23 this is the same but it's all bad and he

05:25 felt like but he's not the worst thing

05:28 is it gonna happen to him if he felt if

05:30 he said this out loud no but not only

05:32 that sorry made them he thinks it's

05:34 actually a smart political strategy

05:36 right right like it worked for Trump why

05:38 wouldn't it work for me so I don't know

05:40 I mean all of a sudden all these demons

05:42 and all these terrible people think it's

05:43 awesome to come out and show the world

05:45 who they really are I guess that's a

05:47 good thing in terms of transparency at

05:49 least we know who is dangerous so we

05:52 should look out for but at the same time

05:54 it's it's really depressing to know that

05:55 this kind of thought process goes

05:57 through anyone's mind right and the fact

05:59 that this is being interpreted as a

06:03 tactic or not just a tactic but this is

06:06 interpreted as behavior wherein people

06:10 are truth-telling and we are the

06:11 fearless truth tellers like Trump like

06:14 forty five was the fearless truth teller

06:15 so that's the most disheartening thing

06:18 about this story I mean there's so many

06:20 disheartening things like I was telling

06:22 Jenk I didn't want to know so much about

06:25 the lingo and the culture in the

06:26 conversation within this pedo in insell

06:29 I guess it's called community I will say

06:32 I will bring up some good things about

06:34 the story one is that he's not going to

06:35 win it's clearly not going to win

06:39 has dredged up some of the sewer sewage

06:41 in our nation and the second thing which

06:44 I was really proud of the USA Today I

06:47 mean we knock a lot of mainstream

06:49 publication they outright called him a

06:51 pedophile and white supremacist and so

06:53 thankfully we are naming it in some

06:56 regard it was very brave yeah ya know

06:58 for sure and I was I was surprised I was

07:00 the last thing I'll say though is that

07:02 this is part of a philosophy in

07:05 libertarianism influenced by ein Rand

07:07 who wrote Atlas Shrugged and The

07:09 Fountainhead this idea of selfish

07:11 desires guiding your politics I know I'm

07:13 oversimplifying it so for folks who are

07:15 libertarians I'm not saying all

07:16 libertarians think this way but the ones

07:18 that are motivated by these really

07:21 gruesome desires of rape and and

07:24 conditioning it as if it is normal as if

07:28 it is there's nothing wrong with it as

07:30 if there is a community so it's okay

07:32 it's justifiable that sort of stuff does

07:34 come from this woman's literature and

07:36 her revival around it and also thank you

07:39 John Oliver for talking about how

07:42 gruesome her the kind of political

07:45 philosophies that her books have

07:47 produced yeah so a couple of things so

07:50 the insult community is different than

07:52 the PTO's pedos whatever you can call

07:55 and and I didn't know there was an

07:57 overlap but apparently there's an

07:58 overlap in in some areas and yeah I know

08:03 look if you have not had sex and you're

08:06 bummed about it

08:07 welcome to the world right so that

08:10 happens that happens for literally

08:12 almost every guy in the world at some  
08:14 point right it's another thing to take  
08:17 that to an extreme and people read these  
08:19 blogs people participated in these blogs  
08:21 and his blogs were that crossover of  
08:25 insanity so he you know he talked about  
08:29 raping the kids and people like yeah go  
08:31 get him etc he talked about at the end  
08:33 he's like well look I'm not I'm kind of  
08:36 an in cell but it doesn't really count  
08:37 because I keep raping my ex-wife his  
08:41 ex-wife eventually got a protective  
08:43 order against them and don't worry they  
08:45 took his daughter away and his wife won  
08:48 on that issue I would imagine easily in

08:51 court

08:52 uh that she by the way has passed away

08:55 so the three-year-old is with other

08:56 family now and hopefully we'll never see

08:59 him again I hope I hope I hope and and

09:02 but now to the the in like the the part

09:06 of the in cell community I don't know I

09:08 feel weird calling them a community that

09:10 is filled with anger and hatred against

09:12 women he spoke to that and he said don't

09:15 forget feminism is the problem and rape

09:18 is the solution

09:19 he compared women to animals which I was

09:21 that my first thought was oh I he

09:23 compared humans to animals where have I

09:25 heard that before

09:26 yeah yeah so this is look it's the most

09:30 extreme part of it I hope I hope it

09:32 doesn't get worse than this I you know I

09:34 always say this Barrow for right-wingers

09:36 is spiral doesn't have a bottom I think

09:38 we found it I think this is the bottom I

09:41 literally cannot imagine or it could be

09:44 lower than this one more of his quotes

09:46 that that he voluntarily gave it in race

09:49 well this this was actually from one of

09:51 the websites this was something that he

09:53 had posted he said and again let's just

09:55 reiterate he does not have custody of

09:56 his daughter thankfully he said I just

09:58 want to bang my daughter actually but

10:00 even if it were legal I'm not sure it

10:02 would happen since I don't have custody

10:04 after sex with kids is legalized parents

10:07 or other guardians will still be

10:08 gatekeepers to some extent and a lot of

10:10 them will want to bang their own kids

10:12 and not share with others I just it's we

10:17 know that pedophilia exists it's just I

10:20 don't know even through everything that

10:22 we've talked about on this show over the

10:24 years I just was I guess still naive and

10:27 didn't think that people this bad

10:29 existed but he was you think I'm excited

10:32 about the are Kelly stories that are

10:34 gonna be coming out because I think

10:35 we're gonna have to face this

10:36 conversation on a national level in

10:39 terms of is that are there limits and

10:42 conversation that we need to have in

10:44 terms of I think we did a story we were

10:46 about to do a story about mandatory

10:48 minimum ages for marriage which not all

10:51 states have right at all yeah and so

10:55 look Trump obviously famously said there

10:59 are good people on both sides not

11:01 referring to in cells or pedophilia but

11:04 about Charlotte

11:05 so but that was the extreme right-wing

11:08 and and they were doing Nazi chants

11:11 about you know getting rid of the Jews

11:14 in the middle of America in

11:16 Charlottesville Virginia and so now this

11:18 guy is a candidate in Charlottesville

11:20 Virginia and and he says hold my beer I

11:24 can do better and so as as we've gotten

11:28 to this point I hope this is the end I

11:30 hope that the pendulum starts to swing

11:33 back but there is a certain insanity

11:36 that has been encouraged in this country

11:38 and it is clearly coming from one side

11:40 and and I don't know if there are any

11:44 responsible people left on that side

11:45 it's easy to condemn this guy and say

11:48 he's not one of us super easy to do that

11:50 but are you going around and saying no

11:52 all the people who say that hey when

11:55 there's other forms of hate speech hey

11:58 it's just political correctness and this

12:00 guy says the same thing oh I'm just

12:02 being politically incorrect he talks

12:04 about hey they're taking my blogs away

12:06 where I want to talk encourage raping

12:08 kids that's against my freedom of speech

12:10 and so I've seen this movie before yeah

12:13 so are you going to then begin to

12:15 caution against other forms of hate

12:17 speech that leads down this road

12:19 my guess is he'll know the right wing is

12:22 going to continue to encourage people to

12:24 push the envelope so I'm gonna add

12:27 something to that that might be

12:28 controversial but I think it's important

12:30 for us to do a better job in

12:31 differentiating between the type of

12:33 speech that that should be policed and

12:35 the type of speech that I think people

12:37 are being overly sensitive about because

12:39 when this kind of stuff comes up you

12:41 don't want the reaction to be oh it's

12:43 just PC culture whatever no this is not

12:46 PC culture this is the kind of stuff

12:48 that is wrong and when you know we start

12:51 nitpicking on every little word that

12:53 someone says you know intent matters if

12:57 someone has no intent to harm others no

12:59 intent to say anything offensive and we

13:02 get on them and then there's like this

13:03 national case about getting them fired

13:05 well then that's when you start losing

13:07 reasonable people who who would look at

13:10 a story like this and say yeah this is

13:12 wrong we should police this type of

13:13 content online

13:14 so I'll just say last thing on the

13:15 Senate so I I hear you on that that is

13:17 definitely true and we

13:19 for actual freedom of expression in

13:21 speech on the show we've defended

13:23 conservatives who have been banned from

13:26 college campuses etc but Rush Limbaugh

13:30 and his ilk started calling women

13:32 feminazis and that's what led down this

13:35 road it did it they demonized feminists

13:38 they demonize women over and over and

13:41 over again and they began a culture and

13:44 a cult of hatred and so this is the very

13:47 end of that road but I remember the

13:50 beginning of the road I remember the

13:51 middle of the road and all along that

13:54 road the right wing kept saying no no

13:56 it's just you be politically correct now

13:59 you have to say and spread my hatred and

14:01 my fear and my sick culture as far as I

14:05 like yeah you get to do it but this at

14:08 least one of the ends of the road was

14:10 this so I hope you're proud

14:15 a Georgia couple has lost custody of

14:19 their 15 year old son after they made

14:22 the decision to give their son marijuana

14:24 to treat his seizures apparently their

14:27 fifteen-year-old son David was suffering

14:29 from seizures on a regular basis they

14:32 had heard that people were using

14:34 medicinal marijuana as a way to stop

14:36 those seizures and so they were so

14:39 desperate and so tired of prescription

14:41 drugs that they decided to try it and

14:43 his seizures stopped but unfortunately

14:47 authorities found out about this and

14:49 there were some significant consequences

14:51 take a look Matthew and Susanna Brill

14:53 say their fifteen-year-old son David

14:56 went from having up to 10 seizures a day

14:58 to being seizure free for 71 days after

15:02 he began smoking marijuana have you ever

15:04 had 71 days where he didn't have a

15:06 seizure

15:07 never currently medical marijuana is

15:10 legal in 29 states and Washington DC 9

15:14 states and DC allow for legal

15:16 recreational marijuana but Georgia has

15:19 some of the strictest marijuana laws in

15:21 the country physicians are not allowed

15:23 to prescribe marijuana for medical use

15:25 and it is illegal to sell or possess it

15:29 but the law does allow those with the

15:31 state issued medical card to possess low

15:33 THC oil the only way he could get a

15:36 medical card would be a six year waiting

15:38 list so the brillz say frustrated with

15:41 traditional prescription medication they

15:43 took matters into their own hands you're

15:45 having to buy it illegally yes Matthew

15:49 brill says he smoked the marijuana first

15:51 to make sure it was okay before giving

15:54 it to his stepson you guys got arrested

15:56 yes you both go to jail for six days the

16:00 brillz were charged with reckless

16:02 conduct after someone alerted the

16:04 Georgia Division of Family and Children

16:06 Services on April 20th David was removed

16:09 from the Brill's custody that date he

16:12 had a seizure and had to be rushed to a

16:13 hospital so this is pretty outrageous I

16:17 mean when you consider that recreational

16:20 marijuana is legalized in so many states

16:22 at this point the idea that a couple

16:24 would lose custody of their children and

16:25 face criminal charges because they gave

16:27 it to their child for religion

16:29 reason is outrageous but I don't know

16:32 maybe maybe I'm being extremely you know

16:33 know this system is extreme so I mean

16:38 the the last part of the report out of

16:41 all the terrible parts in the store

16:42 maybe the most terrible so they take the

16:44 kid to a group home 60 miles from his

16:47 parents the parents are in jail and then

16:50 what's what happens he has a seizure

16:52 because he has seizures let him in this

16:55 case the marijuana is medicine let him

16:59 take the goddamn medicine but no we are

17:02 insane and and brutalize our own

17:04 population and so our answer for you

17:08 want to help your kid is we're gonna

17:11 throw you in jail and I don't give a

17:14 damn about your kid

17:15 let them have seizures because my

17:17 morality says you shouldn't smoke pot

17:20 this is why you need the federal  
17:21 government to end the prohibition of  
17:24 marijuana it's it's nice to have  
17:26 legalization on a state level but  
17:28 remember we still have states that are  
17:30 incredibly conservative unwilling to  
17:33 accept the science behind the medicinal  
17:36 value of marijuana and people are  
17:37 getting hurt as a result of that I mean  
17:39 I think the responsibility of the  
17:40 department the division of Family and  
17:42 Children Services should be to protect  
17:43 children and do the least harm to  
17:46 children and I can't imagine taking  
17:48 stripping him away from his parents if

17:50 this has affected his health at seizure

17:53 was so bad that he had to go to the

17:54 emergency room and now he's in a group

17:56 home 60 miles away from his family that

18:00 cannot be the safest option for this kid

18:03 compared to what they took him out of

18:05 it's just it just can't be it's not it

18:07 doesn't seem logical right right and to

18:09 Anna's point about I mean it's it's

18:11 horrific and I want to get into that

18:13 part as well but to Anna's point about

18:14 it being prohibited on a federal level

18:18 well our Attorney General is going to

18:21 make it his his tenure to make sure that

18:24 that happens and this is why in Colorado

18:26 still they're banking issues if you get

18:29 money from the from the Medical

18:32 Marijuana recreational marijuana

18:35 business and commerce so I think this is

18:39 a difficult sort of fight that we're

18:41 going to have to

18:42 on this level and secondly I know so

18:45 many mothers and fathers with children

18:48 who and children who are autistic who

18:50 have tons of seizures and medical

18:53 marijuana or recreational marijuana was

18:55 the only way that they could put an end

18:57 to it so this is a very familiar story

18:58 this is not a one-off this happens all

19:01 the time in cases of children with

19:03 seizures and it's it's remarkable the  
19:07 extreme measures that we take in  
19:08 responding to it being jailing the  
19:10 parents and then ripping the kid from  
19:12 his home and adding more of more harm I  
19:17 think they said in here that the reason  
19:18 they didn't just use the THC oil is  
19:20 because it would have taken six months  
19:21 to get the licenses six years six years  
19:24 so essentially though they're arresting  
19:27 the parents and stripping the child away  
19:29 from them not necessarily because what  
19:31 they were doing was wrong but just  
19:32 because they didn't wait long but  
19:33 because they did it quicker like it's

19:35 almost like this is okay it just takes

19:37 six years to get it if you would have

19:39 waited six years yeah we're just sort of

19:40 happy with you right just let them have

19:42 seizures ten times a day for six years

19:45 and then maybe we'll let you have it

19:47 this is what we do to our own citizens

19:49 and then we call it freedom and one last

19:52 thing Matthew the dad here it's his

19:55 stepson and they asked him okay you know

19:57 did you know you could go to prison he's

19:59 like of course I knew that and he said

20:00 I'm a father that did what it took to

20:03 make sure my son was okay

20:04 I just I want to I want to add something

20:06 because I've actually witnessed my  
20:08 brother have a seizure it was one of the  
20:10 most frightening things I've ever seen  
20:11 so to witness that at least 10 times a  
20:14 day of course he would have done that of  
20:16 course you would have done that right I  
20:18 bet you Jeff sessions would have done  
20:19 that as well yes definitely one of his  
20:21 children was suffering from that he knew  
20:23 that would be the only option I'm sure  
20:26 he would do it but you know that's the  
20:28 thing with some right-wingers some that  
20:30 they are unable to put themselves in  
20:33 other people's shoes they don't  
20:34 understand things until they experience

20:36 it for themselves

20:41 two police officers in Florida have been

20:44 placed on administrative leave following

20:46 an investigation into a viral video that

20:50 showed the possibility of police

20:51 brutality you will see it and you will

20:53 judge for yourselves it is a brutal

20:55 video but before we get to it let me

20:57 give you the context the police arrested

21:00 Daniel James Dunkel burger on Hallandale

21:03 Beach Boulevard on Wednesday afternoon

21:06 after he was seen taking a cell phone

21:08 and a charger cable from a car

21:10 so he'd burglarized the car to taser

21:13 shots failed to subdue him and he braced

21:15 his body to keep from being shackled and

21:17 so the cops responded in the following

21:22 brutal and graphic way just giving you

21:24 that warning he tried stopping them stop

21:54 [Music]

21:56 - let him I don't care I understand that

22:05 he robbed you but he doesn't hit him

22:07 after the run everyone deserves but he

22:14 doesn't deserve to be hit after he's on

22:17 the ground he was on the ground you're

22:20 hitting him you want to see the footage

22:21 you want to see the footage all right so

22:29 the reason why we came across that video

22:32 is because someone who had the person

22:34 that you hear filming it posted it on

22:37 social media on Twitter to be exact and

22:39 he also included the following in the

22:41 tweet police brutality in broad daylight

22:43 on Hallandale Beach Drive police heavily

22:46 beat this man up busted his head open

22:49 led him to bleed heavily the man is

22:51 known around the area to be a mentally

22:54 challenged individual so knew the press

22:58 tried to get in touch with him and they

23:00 haven't been able to he's alleging that

23:03 the man had mental health issues I have

23:06 not confirmed that I haven't seen any

23:08 confirmation of that but there is

23:10 concern about excessive force there

23:14 especially when he was already on the

23:16 ground and they were still using batons

23:17 to hit him he's been charged with

23:19 resisting arrest without violence which

23:22 makes me wonder why it took all that and

23:24 they still had to physically grab him to

23:27 take him down after the beating and so I

23:29 might thighs just wondering why I didn't

23:31 start there two people one person he

23:33 wasn't even moving when the video

23:34 started I just wondered why all the hits

23:37 and the officer had time the officer

23:40 standing up had time to argue back and

23:42 forth this guy I'm assuming if he needs

23:44 that much of a beating is dangerous and

23:45 violent and scary how do you have time

23:47 to argue with someone standing not even

23:50 a part of this if you're focused on you

23:53 know subduing a dangerous criminal

23:55 so with these cop stories we often have

23:59 to like argue with people even though we

24:03 just saw the video you just saw and

24:06 so but look there maybe it is that there

24:09 is an honest disagreement about people's

24:12 perspectives like so if somebody stole

24:15 my cell phone and my charger for my car

24:17 I'd be mad I'd be really mad right and

24:19 I'd want him arrested okay if they if

24:23 they said to me all right now we're

24:25 gonna beat him like will you just shown

24:27 the video and hit him over the head like

24:29 that

24:29 do you agree no I do not agree you know

24:32 who else didn't agree the person who was

24:34 burglarized you can also hear him in

24:37 that video you know saying that he

24:39 didn't want that to happen so you you

24:42 hear the remorse in that man's voice and

24:45 I think most people understand that

24:47 while it's a crime and of course he

24:50 shouldn't have done that and he should

24:51 be arrested there's no reason why cops

24:54 need to go the extra mile and start

24:56 using that type of excessive force put

24:59 them in handcuffs

25:00 and that's that what why does it have to

25:02 get to that point where they tase him

25:03 and then they take out their batons and

25:05 they start hitting him with the batons

25:06 yes oh I get that it was was more

25:09 difficult to arrest them and a lot of

25:11 people have mental health issues and it

25:13 is difficult to arrest them sometimes

25:15 we've got to train our police better

25:17 that when you run into someone who

25:19 doesn't immediately follow your commands

25:21 that the correct answer is not to beat

25:24 him over the head until he's bleeding

25:25 heavily and and that's unfortunately the

25:28 go-to move but you know the reason I

25:30 brought up honest disagreement is

25:32 because I think that there are a lot of  
25:34 Americans that look at that and go yeah  
25:36 if somebody took my stuff I'd want the  
25:37 cops to do that I guarantee you there'd  
25:39 be there's gonna be a ton of people who  
25:41 watch this video and go all you libs you  
25:43 know you don't know anything you don't  
25:48 believe in America at least what America  
25:50 is supposed to be you believe in living  
25:52 in a police state you believe that  
25:53 authorities have all the right in the  
25:56 world to beat the hell out of someone to  
25:58 the wall by the way to shoot and kill  
26:00 someone who is unarmed if that person  
26:02 disrespects the officer or poses even a

26:05 little bit of a challenge in arresting  
26:08 that person that's in my opinion not  
26:10 what we're supposed to support in the  
26:11 United States that is what you  
26:13 experience in an authoritarian country  
26:15 and if you want that then you should go  
26:18 live in an authoritarian country you  
26:19 shouldn't be in a country like this yeah  
26:21 and the fact that the police don't work  
26:24 for us to have the accountability to the  
26:26 fact we we elect the we elect people  
26:29 within the police department I mean we  
26:31 are actively involved in the process and  
26:33 our tax paying our tax dollars go to the  
26:36 police in the city of Los Angeles alone

26:37 most of our taxes go to the police  
26:40 department so we should be heavily  
26:42 involved in how we want what what world  
26:45 we want to live in I don't want to live  
26:46 in a police state and I think the the  
26:48 other thing too is I'm just it I'm so  
26:51 boggled over how we treat people with  
26:54 mental health issues and the city of Los  
26:56 Angeles again just because I know about  
26:57 LA County so much is the the Howser of  
27:00 the most mentally ill people in the u.s.  
27:04 that's got to tell you something that  
27:06 our resort is to have our last resort or  
27:10 a first resort maybe is to have police  
27:12 use excessive force and to jail mentally

27:16 ill people or people who have mental  
27:18 health issues and I'll say something  
27:19 else thank you for the cameraman who  
27:21 took that video bravely uploaded and  
27:25 online and I understand why he didn't  
27:27 want to reveal his identity because as  
27:28 we've learned in Ferguson and other  
27:30 places people who in Staten Island  
27:33 during Eric Garner's murder people who  
27:35 did videotape the police misbehaving  
27:39 they were held to account with hire  
27:42 either sentencing with more more of a  
27:47 heavy punishment whether it was death in  
27:51 some cases then the police were and so  
27:53 last thing the police are off our on

27:57 leave with pay one of them is on leave

27:59 with pay the other one is retired and

28:01 went back to the police force it's a

28:02 weird story but it's just it's

28:04 disgusting that's just the way it works

28:06 yeah they usually get paid when they're

28:07 on leave as they're being investigated

28:08 and and that's the problem with the

28:10 whole culture I mean look at what

28:12 happened with Chelsea Manning Chelsea

28:13 Manning shows among the different things

28:15 that she released was the Apache

28:17 helicopter video where our soldiers

28:20 mowed down not only innocent journalists

28:23 but then first responders who came to

28:26 bring them to the hospital

28:27 so even if they thought okay we're not

28:30 gonna punish them

28:31 killing these journalists because they

28:32 thought the camera was a gun or

28:34 something they were careless about it so

28:36 no big deal it's a war we knew the

28:38 people coming to help or bring them to

28:40 the hospital and we killed them anyway

28:41 but those people never got punished but

28:43 Chelsea Manning got punished for

28:45 revealing it and so that's why it's not

28:48 surprising that a lot of times there are

28:50 no consequences for the people in power

28:52 but if you reveal what they are doing

28:54 wrong there will be consequences for you

28:56 but I agree with Mesa that there are

28:58 acts of courage throughout the country

29:00 now and and now we're finally getting to

29:02 see what the ugly side of power looks

29:04 like

29:08 one of Donald Trump's duties as

29:11 president is to comfort the families of

29:13 those who have died in school shootings

29:16 or at the very least the school

29:17 shootings that we choose to acknowledge

29:18 on a national level and since the

29:20 government refuses to do anything to

29:22 actually make these shootings less

29:23 likely to happen it's almost literally

29:25 the least he can do he is unfortunately

29:27 wholly unqualified to do it and that was

29:29 demonstrated once again this week when

29:32 he met with one of the parents of a

29:33 Santa Fe High School student who died in

29:36 that shooting

29:37 in advance of that meeting he was

29:39 speaking with reporters before boarding

29:41 Air Force One this is yesterday and he

29:43 talked about traveling to Texas where he

29:44 said quote we're going to have a little

29:46 fun today

29:47 which is an interesting way to describe

29:48 meaning the families of those who have

29:50 been killed in a mass shooting but that

29:51 was how he chose to describe it now the

29:53 mother of one fourteen-year-old Rhonda

29:55 Hart who was the the mother of Kimberly

29:57 Vaughn told the AP that Trump in meeting

29:59 with her repeatedly used the word wacky

30:01 to describe the shooter and the trench

30:03 coat he wore she said she told Trump

30:05 maybe if everyone had access to mental

30:07 health care we wouldn't be in this

30:08 situation part an Army veteran said she

30:10 also suggested employing veterans as

30:11 sentinels in schools

30:13 she said Trump responded and armed them

30:15 she said no but Trump kept mentioning

30:17 arming classroom teachers and she said

30:19 it was like talking to a toddler yeah

30:22 well instead of arming teachers this is

30:24 what I think we should do we should ban

30:26 gun ownership that should be our guiding

30:31 call it's time to ban gun ownership all

30:34 right well he said it so go ahead and

30:37 get angry gun ownership so by the way

30:42 let's just note for the rider because

30:43 obviously a lot of people in this

30:45 country apparently including

30:46 conservative Supreme Court justice can't

30:48 read the only amendment in the US

30:53 Constitution that mesh's regulation is

30:55 the Second Amendment it says a

30:57 well-regulated militia being necessary

31:00 they choose to ignore that completely so  
31:02 even if you don't agree with Joe's idea  
31:04 of banning guns which are unquestionably  
31:08 would make us safer you should at least  
31:11 know that the founding fathers want us  
31:13 to regulate guns and anything else that  
31:15 is said is a total and utter lie you can  
31:18 just read the Second Amendment  
31:19 for yourself and and the reason why I  
31:21 say it's would unquestionably make us  
31:23 safer Joe's proposal even if you think  
31:26 there are downsides that that make it  
31:28 not worth it in your opinion is the  
31:31 experience of every other country in the  
31:33 world and so the idea of mental health

31:35 you know and I know that a lot of people  
31:37 make that suggestion in good faith  
31:39 oh we just improved mental health we  
31:41 have the same exact mental health  
31:43 situation as every other country but we  
31:46 have infinitely a higher gun deaths and  
31:50 it's the word infinite is only barely  
31:53 hyperbolic in Japan I think they had six  
31:56 gun deaths in a year we have I think  
31:59 around 30,000 and and that's because  
32:04 it's not because we're more insane than  
32:05 Japan it's not because we have more  
32:07 video games than Japan it's because we  
32:10 have more guns it's all about the game  
32:12 and this is you know at the NRA a

32:14 terrorist organization holding America

32:17 hostage so that they can perpetuate this

32:20 fantasy of some kind of eventual revolt

32:22 against the American government or their

32:24 protecting themselves against I mean it

32:27 is unbelievable to me to think that this

32:32 man who who is has so little conscience

32:35 and so little actual bearing could then

32:38 anchor a woman who lost their child I

32:42 mean this is the most difficult kind of

32:45 story for me to react to because it

32:47 hurts so badly and you just think you

32:50 know yes we have to ban ar-15 yes we

32:53 have to bend you know these types of

32:56 weapons and I I agree with you I think

32:58 we should we should we should take a  
33:00 really long look at thing we don't have  
33:02 any guns we don't need guns in our  
33:04 society right now um  
33:05 the death toll is too high the  
33:08 consequences to our our moral conscience  
33:11 and just it's just too high I don't want  
33:14 to be afraid to to walk into a school I  
33:16 don't want to be afraid to go to a  
33:17 concert I don't to be afraid to walk  
33:18 down the street you know this is a hand  
33:22 in hand with again white supremacy  
33:24 racism an enforcement of of a certain  
33:28 way of thinking about America which  
33:30 has to expire and we have to start to

33:32 talk about how do we bring about peace

33:34 and how do we bring about you know

33:36 non-violence you know so sick of people

33:39 talking about the need for quote-unquote

33:42 reasonable gun control when unreasonable

33:45 and obscene things are happening to our

33:47 kids the answer isn't let's be

33:49 reasonable let's be unreasonable in the

33:52 response which is why it's time for us

33:54 as progressives to start calling for a

33:55 ban on gun ownership let's and let's

33:58 also acknowledge of course that we're

33:59 not even getting reasonable gun control

34:00 we're not getting anything and that's

34:01 why I can't I can't place myself in the

34:04 position of a parent who just lost one  
34:06 of their kids thankfully I've never had  
34:07 to experience anything remotely  
34:08 approaching that but that your child  
34:11 would die in yet another 100%  
34:14 preventable mass shooting and then to  
34:17 have a person come who is better than  
34:20 anyone else the embodiment of a complete  
34:22 lack of interest or will in doing  
34:24 anything about the problem he is a guy  
34:26 that if he wanted to could change the  
34:28 law he could do it right now he can't  
34:30 change everything unilaterally but he's  
34:32 willing to do it on any number of  
34:33 different issues involving the

34:34 environment with his executive orders

34:35 and he chooses to do nothing here while

34:38 then going off and talking favorably

34:40 about the NRA I I guess I admire the

34:43 bravery of these parents to even be

34:45 willing to sit down with him but I feel

34:47 like that would only make me feel worse

34:48 that this is a guy who seems to delight

34:51 in working with the industry that

34:53 perpetuates the culture that produces

34:55 these shootings yeah you know he just

34:57 unilaterally used laws from world war

35:01 two era and on to impose tariffs and to

35:05 support coal power plants and he said it

35:10 was a matter of national security

35:11 tens of thousands of people dying every  
35:14 year is a matter of national security we  
35:16 have about ten 911s every single year  
35:19 from gun violence in America and that's  
35:21 national security not because hey you  
35:24 have donors from the that are from the  
35:25 coal industry that is not national  
35:27 security but I want to give you a couple  
35:30 of other perspectives here Pamela  
35:33 stanitch was also with the President and  
35:36 I get that it depends probably to some  
35:39 degree at least on your perspective  
35:40 going into the meeting and your  
35:42 political perspective  
35:43 she was a supporter of the president so

35:45 she came away impressed by him and said  
35:47 that he showed society compassion and  
35:49 concern and and then but then this quote  
35:52 she certainly didn't mean it this way  
35:53 but was heartbreaking to me she said  
35:56 changes are coming for the good thank  
35:58 you mr. Trump oh yeah there are no  
36:01 changes coming for the good he is not  
36:03 going to protect you in any way shape or  
36:05 form he'll pray harder this time yeah  
36:08 and it's just this is not national  
36:10 security this is male insecurity you  
36:13 know we talk about serial killers and we  
36:16 can clearly see how that's motivated by  
36:19 sexual violence and we have to also look

36:22 at these school shootings I mean one of  
36:24 the things that always seems to happen  
36:26 is violence directed at the female  
36:28 students madness which is it further and  
36:32 the truth of the matter is like we have  
36:34 a sickness and and our men are running  
36:37 towards guns as some way to assert their  
36:40 their you know rage and and and and  
36:43 needing to push themselves up in terms  
36:45 of power and I think we have to talk  
36:48 about that part of it I think we have to  
36:49 talk about how this is a male problem  
36:51 you know I'm mostly a white male problem  
36:55 so when we're talking about gun control  
36:58 we also have to talk about you know

37:01 these issues that are what is leading  
37:03 our men down this crazy path what is  
37:05 this misogyny that's taking root what is  
37:07 this racism that's taking root it is so  
37:10 deeply upsetting but we're never going  
37:12 to get to the problem unless we actually  
37:14 start talking about the root of it which  
37:15 is I think deeply psychological it's a  
37:18 yes mental illness but it's not a it's a  
37:22 pervasive type of mental illness in  
37:24 America to think that you need a weapon  
37:26 of a rifle an ar-15 to become a real man  
37:29 I think that's crazy I want to give you  
37:31 two last perspectives here this is not  
37:35 the only time that he's come across as

37:37 uncaring in a similar situation

37:40 you also had actually several different

37:44 instances there's the soldier who died

37:46 in Africa and he was terribly rude to

37:49 his wife and that became a huge issue

37:51 but also Samantha Fuentes was shot in

37:53 parkland in that shooting she

37:55 survive but she's got shrapnel behind

37:57 her lodge behind her right eye and Trump

38:00 came to covered her she said I've never

38:02 been so unimpressed by a person in my

38:05 life and he didn't make me feel better

38:07 in the slightest now the last

38:10 perspective is Donald Trump so we'll end

38:12 on an otherwise tragic and very sad

38:15 story in a in a humorous way because as  
38:18 a candidate Donald Trump said we're all  
38:21 wrong about his what some are calling  
38:23 his empathy gap he said empathy would be  
38:26 quote one of the strongest things about  
38:28 Trump who says that but he talks like  
38:33 that  
38:33 and is that what a person who's  
38:35 empathetic towards others would say like  
38:37 you know you know what's really good  
38:39 about me how much I could empathize with  
38:41 you is one of the strongest things about  
38:42 you gur if anyone else said that you'd  
38:46 say the lock him up this guy's crazy I  
38:48 mean you're talking about mental health

38:49 problems who says I'm really strong on

38:52 empathy let alone using the third person

38:55 strong empathy Jenkins last word yes

38:58 it's time to ban gun ownership there you

39:04 go that's right

39:05 I love the strength there you go time to

39:08 fight back

39:12 earlier this week Roseanne Barr lost her

39:15 show after a series of racist and

39:17 conspiratorial tweets now to restore

39:20 cosmic balance obviously someone on the

39:22 Left needs to be destroyed

39:24 thankfully Samantha be used a dirty word

39:26 in a show so I think it's gonna be her

39:28 she had this to say during a segment on

39:30 the border she said about Ivanka posting  
39:34 a photo of her with her photo with her  
39:36 child on like the same day that we found  
39:37 out that new children were being  
39:39 separated from their parents at the  
39:40 border Samantha we said you know Ivanka  
39:42 that's a beautiful photo of you and your  
39:43 child but let me just say one mother to  
39:45 another do something about your dad's  
39:47 immigration practices you feckless  
39:49 c-word he listens to you put on  
39:51 something tight and low-cut and tell  
39:53 your father to effing stop it tell him  
39:54 that was an Obama thing and see how it  
39:56 goes okay well my favorite thing about

39:58 that is that what people are getting

39:59 worked up about is not the the fact that

40:02 she can make a joke subtly but we

40:03 totally know what she means about the

40:04 fact that her father is sexually

40:06 attracted to her people are just looking

40:07 at whatever obviously is let's focus on

40:09 the c-word which people are and I'm

40:11 pissed at her so she apologized on

40:12 Twitter saying I would like to sincerely

40:13 apologize to Ivanka Trump in to my

40:15 viewers for using an expletive on my

40:17 show to describe her last night it was

40:18 inappropriate and inexcusable I crossed

40:20 a line and I deeply regret it she

40:22 expanded on this during an awards show

40:24 saying we spent the day wrestling with

40:26 the repercussions of one bad word when

40:28 we all should have spent the day

40:29 incensed that as a nation we are

40:31 wrenching children with their parents

40:32 and treating people legally seeking

40:34 asylum as criminals every week I strive

40:36 to show the world as it is unfiltered

40:37 sometimes I should probably have a

40:39 filter except that I take it seriously

40:40 when I get it wrong and I do take

40:42 responsibility when I get it wrong

40:44 apology not accepted from the Trump clan

40:46 though and Donald Trump has been

40:47 tweeting about how she needs to be fired

40:49 so let's just be clear on a number of

40:51 things ted nugent used the same exact

40:53 word and was later about of course

40:56 hillary clinton and was later invited to

40:58 the White House by Donald Trump

41:00 so apparently doesn't mind the word sky

41:02 and has used it in tweets before Baio

41:04 used it and then I was invited to speak

41:06 at the Republican National Commission so

41:08 Trump and the Republican Party obviously

41:10 do not mind the word and then Roseanne

41:12 Barr used the word and was not fired you

41:16 see that's the difference it's the

41:18 difference between using a vulgarity

41:19 against one particular person if that  
41:21 was the rule  
41:22 then half of the right wing would be  
41:24 fired immediately for what they've said  
41:25 about me a and I don't actually want  
41:28 that no and and and smear an entire  
41:31 group of people which is what Roseanne  
41:33 Barr did if you can't understand that  
41:35 difference it's because you were trying  
41:36 hard not to understand that difference  
41:38 or you're a little dense and then  
41:40 finally when sarin could be Sanders  
41:42 pretends to be outraged and says the  
41:45 collective silence by the left and its  
41:46 media allies is appalling and talks

41:49 about quote her disgusting comments

41:51 can't any reporter raise their hand and

41:53 go didn't the president that you

41:55 represent say that you should grab women

41:58 by the pussy so could you please drink

42:01 this tall glass of shut up juice while

42:03 you pretend to care about vulgarity

42:06 I mean we're tolerating this obvious

42:09 like by Sarah Huckabee Sanders and the

42:12 Republicans that they care about it and

42:14 then they are offended that if you use

42:16 while Garrity what a preposterous notion

42:19 Donald Trump is the most vulgar

42:21 president we've ever had I an

42:23 order-of-magnitude certainly in our

42:24 lifetimes and he has not only said those  
42:27 things he's done those things and so the  
42:31 idea that Sarah Huckabee Sanders or any  
42:32 right-wingers outraged by this is  
42:34 nothing but a total lie it's false and  
42:38 not you know my mother is Italian so she  
42:41 taught me how to curse from a very young  
42:44 age and but I'll say that she hates that  
42:47 word mm-hmm and that word causes really  
42:49 strong emotions from people mostly women  
42:51 but I don't think I've ever heard a  
42:53 woman use that word against another  
42:55 woman which is sort of I think what  
42:57 she's trying to do and get away with  
42:59 here you know and you can't equate a

43:03 like a one white celebrity woman using  
43:08 one word against another white celebrity  
43:09 woman with a white celebrity woman  
43:13 deliberately using racist epithet  
43:15 against a powerful figure in the  
43:18 government which is what Roseanne Barr  
43:20 did right yeah and and they're not  
43:22 equatable right yeah that's the problem  
43:25 here like they're not equatable and so  
43:27 now immediately it becomes this sort of  
43:29 1ups person ship in the media and that  
43:33 you lose the  
43:34 the general outrage about the fact that  
43:37 we have a racist administration who was  
43:40 defending racists and then you had

43:42 somebody who was using that defending  
43:44 that administration using racism that  
43:46 was the whole issue  
43:48 Samantha B's sort of subtle use of a  
43:51 word that will tick almost everybody off  
43:53 in a different context I think has to be  
43:56 seen in that way you know I it's I can't  
43:59 say about that one all I'm just saying  
44:01 is I don't I don't think there equatable  
44:03 because I think you have a racist  
44:05 administration being you know uphold  
44:07 being upheld by a person who's then a  
44:09 racist and then a TV station going you  
44:11 got through we're done with this you  
44:13 don't even mean it's subtle but it's a

44:15 reminder though that we can't fight  
44:18 trump with trump like behavior yeah we  
44:21 can't lower ourselves to his  
44:22 childishness so we shouldn't use those  
44:25 kinds of words because it just becomes a  
44:26 distraction from the core terrible  
44:28 issues that trump's advancing yeah yeah  
44:31 and the only thing i'll say that is I  
44:33 will accept that from progressives like  
44:37 you guys I will not accept it from the  
44:39 right way just won't so the the minute  
44:41 the Trump administration says she should  
44:43 be fired or shershow canceled I say yeah  
44:47 the minute you condemn Ted Nugent's  
44:48 Kibeho Roseanne Barr and Donald Trump

44:51 and if you want Samantha B to lose her  
44:54 job  
44:55 deal as long as Donald Trump steps down  
44:57 and loses his job yeah well that's a  
45:00 good point  
45:01 yeah probably agree to that don't don't  
45:04 don't apologize to racists don't  
45:06 apologize to authoritarianism into a box  
45:12 where you are saying I made a joke and I  
45:15 use the word and I was being provocative  
45:17 with something that is actually causing  
45:19 really deep hatred you know Ill don't  
45:21 think you can make that equation and  
45:23 that's what's happening in the media  
45:25 right now and don't pretend that people

45:27 are operating with good faith who have

45:29 literally never in the record done so

45:31 [Music]

45:59 you
